

Video Editing - The Car Chase

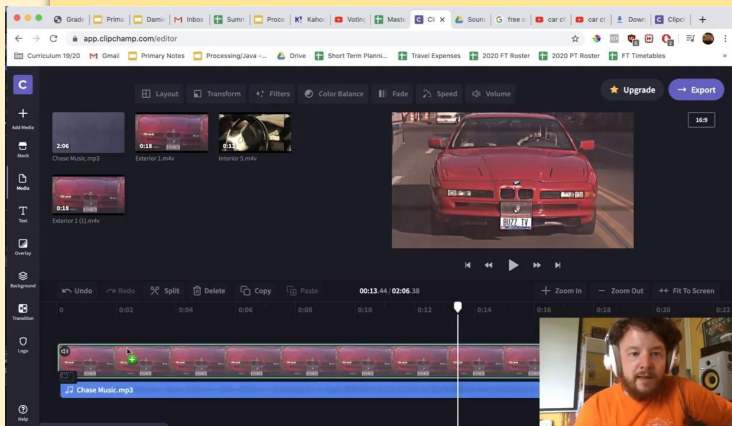

Learning Outcomes:

- Using ClipChamp to create an exciting car chase video
- To customise the video with filters and transitions
- To export the final cut as a WMV file

Here's what you have to do

- 1 Watch the tutorial below on how to get started.

Must-Watch Tutorial (4mins)

A Sample Video (27 secs)

- 2 Sign up for a free ClipChamp account at: <https://app.clipchamp.com/signup>

- 3 Download your media from: <https://taoc.ie/carchasemedia>

- 4 Get editing!

Need music?

We have included music in the media folder link above - or make some in Bandlab!

NOTE: If you're really happy with your finished product and wish to upload it somewhere, you must credit the production crew:

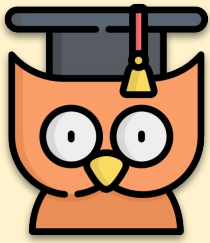

Starring Brandy Seymour

Cinematography by Mike Tavares

Produced and Directed by Peter John Ross

Shot on location downtown Columbus, Ohio

Video Tech - Pizza Commercial

Learning Outcomes:

- Using ClipChamp to create an enticing Pizza commercial
- To customise the video with filters and transitions
- To export the final cut as a WMV file

Here's what you have to do

In this lesson, your challenge is to find and download **FREE** clips from www.pexels.com and to edit them into a **30 second** pizza commercial.

1 Watch this to get some inspiration for making your **pizza commercial**. In it, Fiverr challenges this video tech YouTuber to hire a number of different video editors from their site to create an edit of his Pizza commercial footage for a made up company.

2 Sign up or login to ClipChamp at: <https://app.clipchamp.com/signup>

3 Download your **video media** from: <https://www.pexels.com>
Download your **audio media** from: <https://taoc.ie/pizzamusic>

4 Get editing!

5 Finished? Share your finished edits with damien@theacademyofcode.com for a chance to win a **Just Eat Gift Card** for the next time you have your mates over!
